6 Everyday use and help

QUICK

06. Shopping list

Quick version

No time to read it all? This is the short version. The full guide is below.

- What to buy for the projects, with rough prices.
- Buy things only when you reach the project that needs them. Projects 4, 6 and 7 need parts.
- The whole ladder costs about $80 to $150, spread over weeks. Prices change: check before you buy.
- For Project 7, the valve must be **normally closed**: water is OFF when the power is off.
- Do not buy anything that says "mains", "110V", "220V" or "AC" for these projects.
- Not sure a part matches the list? Ask Gemini with prompt 6 (Check my plan) before buying.
- Buy from stores that list returns.
